PROJECTS

PERSONAL-PORTFOLIO - This project centers on crafting a dynamic and responsive personal portfolio website, leveraging cutting-edge web development technologies like React.js and Tailwind CSS. The portfolio will serve as a comprehensive showcase of skills, projects, and achievements, offering a visually captivating and user-friendly experience across various devices(https://github.com/masoodpk/portfolio)

E-COMMERCE APP - This project encompasses the development of a comprehensive e-commerce platform, integrating React.js for the frontend, Node.js with Express for the backend, and MongoDB for database management. With a robust feature set including a fully functional shopping cart, this application promises to deliver a seamless and engaging shopping experience for users.(https://github.com/masoodpk/E-commerce-SHOPPY)

Brewyourbrand - Marketing Website - Contributed to the development of a live marketing website using React.js, HTML, and CSS. Designed and implemented interactive components and responsive layouts to enhance user experience. Collaborated with a team to ensure smooth functionality, modern design, and optimized performance, delivering a visually appealing and fully functional live project.(https://brewyourbrand.in)
